- Deep work
- Problem Solving
- Team Collaboration
- Time Management
- Fast Learning

Education Background

- Bayero University, Kano.
Bachelor of Science in Biochemistry
2020 - 2025
- FreeCodeCamp
Certification in Responsive web design
Completed in 2022

About Me

Full-stack web developer with 3+ years of experience building responsive, scalable web applications using modern JavaScript and PHP frameworks. Proven expertise in frontend frameworks like React and Next.js, and backend tools such as Laravel and Symfony. Passionate about solving real-world problems through clean architecture, reusable components, and efficient APIs. Seeking to contribute to impactful tech teams delivering seamless digital experiences.

Professional Experience

Fluxrware | Full-Stack Developer

Jan 2024 - Aug 2024

Key responsibilities:

- Designed and normalized a dedicated user_profiles table to separate user details from authentication logic, improving database efficiency and clarity.
- Refactored slow database queries and implemented indexing for better performance.
- Collaborated with QA to validate end-to-end features across frontend and backend, contributing to a stable production release.

MedHub | Frontend Developer

Oct 2024 - Present (Contract)

Key responsibilities:

- Developed responsive UIs with Next.js and Tailwind CSS.
- Integrated APIs and built reusable UI components.
- Used Git for version control in a collaborative workflow.

LiquidMoni | Frontend Developer Intern

Dec 2023 - Feb 2024

Key responsibilities:

- Resolved UI/UX bugs to improve usability.
- Maintained frontend codebase and coordinated with developers using Git.

PERSONAL PROJECTS

PeriChat - Messaging App

Real-time messaging with Laravel + React, powered by WebSockets (Laravel Echo).

GitHub: <https://github.com/KhalidHayKay/PeriChat>

Taskify - Task Manager App

Fullstack task manager with a PHP backend, MySQL database, and a Vanilla TypeScript frontend.
